Career Objective

Full-stack JavaScript engineer leading the technical team at WioCare, where I architect and ship an AI-powered healthcare platform in production with Next.js, React, Node.js and TypeScript. I aim to grow into a software architect role designing large-scale products and mentoring the engineers who build them.

Technical Skills

Experts: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS

Comfortable: Node.js, Express.js, MongoDB, PostgreSQL, Prisma, REST APIs, JWT & RBAC, Socket.IO, Firebase, TanStack Query.

Familiar: Docker, Stripe, Firebase Cloud Messaging, i18next, EmailJS.

Tools: VS Code, Git & GitHub, Postman, Docker, Firebase, Vercel, Netlify, Figma, Photoshop.

Interpersonal: Team leadership, mentoring, code review, communication, problem-solving, quick learner.

Experience

Head of Technical Team — **WioCare** — **Chattogram, BD | 10/25 - Present**

- Leading the engineering team of an AI-powered digital healthcare platform in production — task assignment, code reviews, mentoring, and clear technical direction.
- Architecting core healthcare modules: ambulance dispatch with live geo-tracking, pharmacy POS & medicine delivery, and lab booking with automated reports.
- Building scalable systems with Next.js, Node.js, Express, and TypeScript — REST APIs and JWT authentication with role-based access control (RBAC).
- Shipping real-time features (Socket.IO, Firebase Cloud Messaging) and payment gateway integrations.

Frontend Developer — **Jionex IT** — **Chattogram, BD | 02/25 - 07/26**

- Developing and maintaining modern web applications using **React.js**, **Vite**, **Tailwind CSS**, **DaisyUI**, **Node.js**, and **Express.js**.
- Ensuring seamless user experiences with **responsive** and **mobile-friendly** designs.
- Collaborating with designers and backend developers to implement new features and optimize performance.
- Implementing **JWT-based authentication**, **role-based access control**, and **API integration** for secure and dynamic applications.
- Utilizing **TanStack Query**, **Axios**, and state management tools for efficient data fetching and handling.

Sr. Computer Operator — **Computer Park & IT Ins.** — **Chattogram, BD | 07/22 - 07/24**

- Handled documentation, data management and reporting on ERP, Excel & Word; office administration and technical support.

Projects

WioCare - AI-powered digital healthcare ecosystem (production)

Live: wiocare.com | Role: Head of Technical Team

Production healthcare platform connecting patients with ambulance, pharmacy and lab services.

Key Features:

- Ambulance dispatch with live geo-tracking and real-time status updates
- Pharmacy POS, inventory & medicine delivery, and lab booking with automated reports
- Secure JWT auth with RBAC, real-time notifications (Socket.IO, FCM), and payment integration

Technologies Used: Next.js, React, Node.js, Express.js, TypeScript, MongoDB, Firebase, Socket.IO, FCM, Stripe

Complaint Management System - A platform for submitting and managing grievances

GitHub: client / server | Livesite

Multilingual platform for citizens to submit complaints and for admins to manage and resolve them.

Key Features:

- Complaint submission with category, photo, and live location
- Separate dashboards for admins and users with role-based features
- i18next-powered multilingual support (English and Bengali)

Technologies Used: React.js, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB, Firebase, Vercel, i18next

Education

Master of Business Administration (MBA) In Accounting-(2022-2024) — **National University, BD**

Certificate

Complete Web Development Course from Programming Hero Batch-10, 2024

Language

English -Comfortable **Bangla** - Native **Hindi** - Communicative
