Professional Summary

Head of Technical Team at WioCare and full-stack JavaScript engineer. I lead engineering execution for an AI-powered digital healthcare platform serving real patients in production — architecting scalable systems with Next.js, React, Node.js, Express & TypeScript, and growing the team through code reviews, mentoring, and clear technical direction.

Technical Skills

Experts: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS

Comfortable: Node.js, Express.js, MongoDB, PostgreSQL, Prisma, REST APIs, JWT & RBAC, Socket.IO, Firebase, TanStack Query.

Familiar: Docker, Stripe, Firebase Cloud Messaging, i18next, EmailJS.

Tools: VS Code, Git & GitHub, Postman, Docker, Firebase, Vercel, Netlify, Figma, Photoshop.

Interpersonal Skills

Team Player, Quick Learner, Decision Maker, Polite, punctual.

Experience

Head of Technical Team

WioCare

Chattogram, BD | 10/25 - Present

- ✓ Leading the engineering team of an AI-powered digital healthcare platform in production — task assignment, code reviews, mentoring, and clear technical direction.
- ✓ Architecting core healthcare modules: ambulance dispatch with live geo-tracking, pharmacy POS & medicine delivery, and lab booking with automated reports.
- ✓ Building scalable systems with Next.js, Node.js, Express, and TypeScript — REST APIs and JWT authentication with role-based access control (RBAC).
- ✓ Shipping real-time features (Socket.IO, Firebase Cloud Messaging) and payment gateway integrations.

Frontend Developer

Jionex IT

Chattogram, BD | 02/25 - 07/26

- ✓ Developing and maintaining modern web applications using **React.js**, **Vite**, **Tailwind CSS**, **DaisyUI**, **Node.js**, and **Express.js**.
- ✓ Ensuring seamless user experiences with **responsive** and **mobile-friendly** designs.
- ✓ Collaborating with designers and backend developers to implement new features and optimize performance.
- ✓ Implementing **JWT-based authentication**, **role-based access control**, and **API integration** for secure and dynamic applications.
- ✓ Utilizing **TanStack Query**, **Axios**, and state management tools for efficient data fetching and handling.
- ✓ Writing clean, maintainable code and following best practices in frontend and backend development.

Sr. Computer Operator

Computer Park & IT Ins.

Chattogram, BD | 07/22 - 07/24

- ✓ Secretarial Functions (Official Letter writing, File Management, Office Tasks, etc.)
- ✓ Documentation, File Scanning, Data Managing on the system (ERP, Excel & Word).
- ✓ Completed any task assigned by management.

Projects

Complaint Management System - A platform for submitting and managing grievances

GitHub: [client](#) / [server](#) | [Livesite](#)

A multilingual web application that allows citizens to submit complaints and enables admins to manage and resolve them.

Key Features:

- Complaint submission with category, photo, and live location
- Separate dashboards for admins and users with role-based features
- i18next-powered multilingual support (English and Bengali)

Technologies Used: React.js, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB, Firebase, Vercel, i18next

LearnBridge-A collaborative online learning platform

GitHub: [client](#) / [server](#) | [Livesite](#)

A platform where students and tutors can collaborate, manage sessions, and share study materials efficiently.

Key Features:

- Role-based dashboards for admins, tutors, and students
- JWT-based authentication with Google and GitHub login
- Real-time session booking and notes with pagination support

Technologies Used: React.js, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB, Firebase, JWT, Vercel

Serve-Together - a user-friendly platform for volunteer management

GitHub: [client](#) / [server](#) | [Livesite](#)

A responsive web platform to manage volunteering activities efficiently, connecting volunteers with events and organizations.

Key Features:

- Volunteer dashboard with real-time event tracking and registrations
- Admin panel to manage events, users, and analytics
- Secure authentication with Firebase and role-based access control

Technologies Used: React.js, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB, Firebase, Vercel.

Education

Master of Business Administration (MBA) In Accounting-(2022-2024)

National University, BD

Certificate

Complete Web Development Course from Programming Hero

Batch-10, 2024

Language

English -Comfortable

Bangla - Native

Hindi - Communicative
